

Knowledge Pack: Step 6 - Emotional & Ethical Intelligence Assessment

YPD Career Vision Program Lite™ | Social & Moral Intelligence Evaluation

STEP OVERVIEW

- **Goal**: Assess emotional maturity, empathy, social intelligence, and ethical reasoning
- **Time**: 10-14 minutes
- **Assessment Method**: One complex emotional dilemma + 10 targeted MCQs
- **Psychological Framework**: Emotional Intelligence (EQ) + Social Quotient (SQ) + Moral Reasoning
- **Key Insight**: How student navigates relationships, emotions, and ethical challenges

STEP INTRODUCTION

Emotional & Ethical Intelligence Welcome:

...

❤️ Step 6: Your Heart and Your Moral Compass

Amazing progress, {Student Name}!

We've explored your mind - how you think, learn, and solve problems. Now we're going to explore your heart and your moral compass: how you understand emotions, connect with others, and navigate ethical challenges.

What We're Discovering:

- ❤️ **Emotional Intelligence** - How well you understand and manage emotions (yours and others')
- 🤝 **Social Intelligence** - Your ability to build relationships and work with diverse people
- 🧠 **Ethical Reasoning** - How you make decisions when facing moral dilemmas
- 😊 **Self-Control** - How you handle stress, frustration, and pressure
- 🌟 **Empathy & Compassion** - Your ability to understand and care about others' experiences

Why This Matters for Your Career:

Technical skills get you hired, but emotional and ethical intelligence determine your success and satisfaction. Every career involves working with people, managing relationships, and making decisions that affect others. Understanding your EQ and ethical style helps us find careers where you'll not just succeed, but make a positive impact.

How This Assessment Works:

You'll first navigate ONE complex emotional and ethical dilemma - a realistic scenario where multiple people's feelings and moral principles are involved. Then you'll answer 10 questions that explore different aspects of your emotional and social intelligence.

****Remember**:** There are no "perfect" answers. We want to understand YOUR authentic approach to emotions and ethics.

Ready to explore the human side of your career potential?

Time needed: About 12 minutes of thoughtful reflection on relationships and values

 "ethical_reasoning": "Moral decision-making with competing values",
 "integrity": "Honesty and authenticity in difficult situations",
 "responsibility": "Ownership of actions and impact on others"
}
```

```
```
```

Grade-Adaptive Emotional Dilemmas:

For Grades 7-8 (Peer & Family Relationships):

...

❤️ THE DILEMMA: The Friendship, Truth, and Loyalty Crisis

The Situation:

You discover that your two closest friends, Arjun and Priya, are in a complicated situation that's affecting your entire friend group and putting you in an impossible position.

Background:

- Arjun and Priya have been best friends since childhood, just like you with both of them
- Recently, they both developed feelings for the same person, Sam, who is new to your school
- Neither Arjun nor Priya knows about the other's feelings
- Sam seems to like spending time with your group but hasn't shown romantic interest in anyone

The Crisis Unfolds:

****Week 1**:** Arjun confides in you about his feelings for Sam and asks for advice on how to ask Sam out. He specifically asks you not to tell anyone, especially Priya, because he's worried she'll tease him.

****Week 2**:** Priya separately tells you she has strong feelings for Sam and is planning to confess. She asks you to help her figure out if Sam might like her back. She mentions she's grateful Arjun isn't interested in Sam "because that would make things complicated."

****Week 3**:** You notice Sam enjoys the attention from both Arjun and Priya but seems unaware of their romantic feelings. Sam mentions to you privately that they like your friend group but find some of the recent "weird tension" confusing.

****Week 4 - The Crisis Point**:**

- Arjun plans to confess to Sam tomorrow after school
- Priya plans to confess to Sam tomorrow during lunch break
- Neither knows about the other's plan
- Sam asks you directly if you know why Arjun and Priya have been acting "strange" lately
- Your other friends in the group are starting to take sides without knowing the full story

- Both Arjun and Priya separately ask you to be there for "moral support" during their confessions

Emotional Complications:

- **Arjun** trusts you completely and believes you're "the only one who understands"
- **Priya** considers you her "most reliable friend" and counts on your support
- **Sam** trusts you to be honest and help navigate the social dynamics
- **Friend group** looks to you as someone who "always knows what to do"
- **Your own feelings** are conflicted between loyalty, honesty, and preventing hurt

Additional Pressures:

- You realize that no matter what happens, someone will get hurt
- Both friends have confided in you because they trust you completely
- You're worried that if both confess on the same day, it could damage their lifelong friendship
- You're also concerned that hiding this information makes you complicit in potential drama
- Sam deserves to make informed choices but you've been asked to keep secrets

Now you'll face 10 questions about how to navigate this emotionally complex situation with integrity, empathy, and wisdom...

...

For Grades 9-10 (Academic & Social Pressure):

...

🗣️ THE DILEMMA: The Academic Integrity and Social Justice Challenge

The Situation:

You're facing a complex situation involving academic pressure, social inequality, and ethical decision-making that could affect multiple students' futures, including your own.

Background Context:

- You're in a highly competitive academic environment where grades significantly impact college admissions
- Your school has students from diverse economic backgrounds, creating unequal access to resources
- You've always been known as someone with strong moral principles and academic integrity

- Several classmates look to you for leadership and guidance

The Ethical Crisis:

****The Discovery**:** While working on a major group project, you discover that one of your teammates, Rohit, has been consistently cheating on individual assignments. His grades have improved dramatically over the past few months, which you now realize is due to using sophisticated online tools and getting paid help for assignments.

****The Complication**:** Rohit comes from a financially struggling family. His parents work multiple jobs, and his improved grades represent hope for a scholarship that could transform his family's situation. He confides in you that he started cheating because he couldn't afford tutoring like wealthier classmates, and now feels trapped in the pattern.

****The Personal Stakes**:** Your group project accounts for 30% of your final grade in a critical subject. Rohit's cheating skills have made significant contributions to your group's work, potentially giving your entire team an unfair advantage. Your grade in this subject will significantly impact your own college applications.

****Multiple Moral Pressures**:**

****Week 1 Revelation**:**

- You realize the extent of Rohit's cheating and feel complicit in benefiting from it
- Rohit begs you not to report him, explaining his family's financial desperation
- You notice other students who can afford tutoring and resources also have suspicious grade improvements
- Your teacher, Mrs. Sharma, mentions being proud of the class's overall improvement this year

****Week 2 Complications**:**

- Another classmate, Kavya, privately tells you she knows about Rohit's cheating and is considering reporting it because it's "unfair to honest students"
- You discover that the online cheating service Rohit uses is being used by several other students, including some from wealthy families who can afford it simply for convenience
- Your parents express pride in your improved group project grades and mention them to relatives and family friends

****Week 3 Pressure Points**:**

- The teacher announces that this year's class performance is so strong that several students might receive special recognition and scholarship recommendations

- Rohit's parents attend a school event and emotionally thank you for being such a good friend to their son during his "academic transformation"
- You realize that reporting the cheating might expose a larger network that includes popular and influential students
- Kavya gives you an ultimatum: report the cheating yourself or she will, but she'll mention that you knew and did nothing

Stakeholder Impact Analysis:

If you report the cheating:

- Rohit faces academic consequences that could destroy his scholarship chances and devastate his family
- Other students in the cheating network face similar consequences
- Your own grades might be questioned due to group project association
- You maintain personal integrity but potentially harm multiple families
- The school might implement stricter surveillance that affects all students

If you don't report:

- Academic dishonesty continues, creating unfair advantages
- Honest students continue to be disadvantaged
- You become complicit in systemic academic fraud
- Kavya might report anyway and expose your knowledge
- Your own academic achievements become morally questionable

Additional Ethical Dimensions:

- Economic inequality in education access and fairness
- Individual vs. systemic approaches to addressing cheating
- Balancing compassion for personal circumstances with institutional integrity
- Long-term vs. short-term consequences for all involved
- Your role as both beneficiary and potential whistleblower

You'll now navigate 10 complex questions about balancing empathy, integrity, justice, and practical consequences in this morally ambiguous situation...

...

For Grades 11-12 (Real-World Ethical Complexity):

...

🌍 THE DILEMMA: The Climate Action, Career Dreams, and Family Loyalty Crisis

The Situation:

You're facing a profound conflict between your environmental values, your career aspirations, your family's economic needs, and your responsibilities to your community - a situation that will shape your adult identity and future choices.

The Complex Background:

****Personal Context**:** You've been passionate about environmental issues throughout high school and have built a strong profile around sustainability leadership. Your college applications and scholarship opportunities are largely based on your environmental advocacy work.

****Family Reality**:** Your father has been offered a senior management position at a major industrial company in your region. This job would provide financial security your family has never had, allow your younger siblings better educational opportunities, and represent the culmination of your father's career struggles.

****The Moral Conflict**:** The company offering your father the position has a problematic environmental record. They've been involved in recent pollution incidents, resist sustainable practices, and actively lobby against environmental regulations you believe are necessary.

The Crisis Deepens:

****Week 1 - The Opportunity**:**

- Your father receives the job offer with a salary triple his current income
- Company representatives mention being impressed by your family's values and hint that there might be internship opportunities for you
- Your mother expresses relief at the prospect of financial security after years of struggling
- Your younger sister mentions college dreams she'd previously never dared consider

****Week 2 - The Complications**:**

- You research the company and discover their environmental violations are worse than you initially thought
- Environmental groups you've worked with are planning protests against this same company

- Your college admissions counselor mentions that an internship with a "real company" could strengthen your applications
- Community members express excitement about the jobs and economic growth the company could bring

****Week 3 - The Pressure Intensifies**:**

- Your father privately shares that accepting this job would finally allow him to provide for the family the way he's always wanted
- Your environmental club members ask you to help organize a protest against the company's expansion in your region
- The company's HR director reaches out to you directly about potential leadership development opportunities
- Local newspapers want to interview your family as a "success story" of local talent being recognized

****Week 4 - The Crisis Point**:**

- Your father needs to give his answer by week's end
- Environmental groups plan a major protest that could significantly impact the company's local reputation
- You're offered a paid internship with the company that would provide excellent experience and networking
- Several community families express privately that they're counting on jobs this company would create
- Your college advisor suggests that your environmental work combined with real corporate experience could make you a uniquely valuable candidate for top programs

Multi-Dimensional Ethical Challenges:

****Personal Integrity vs. Family Loyalty**:**

- Your genuine commitment to environmental protection vs. supporting your family's economic breakthrough
- Consistency with your stated values vs. pragmatic recognition of complex realities
- Individual idealism vs. family collective welfare

****Community Impact Complexity**:**

- Environmental protection for the region vs. economic development for local families
- Long-term environmental costs vs. immediate economic benefits for the community
- Activist responsibility vs. understanding that people need jobs to survive

****Career and Future Implications**:**

- Maintaining ideological purity vs. gaining real-world experience in complex systems
- Building a resume based on consistent advocacy vs. demonstrating ability to navigate complex ethical terrain
- Personal brand authenticity vs. strategic career development

****Systemic vs. Individual Change Philosophy**:**

- Working within problematic systems to create change vs. maintaining external pressure for change
- Believing that good people can transform bad institutions vs. believing that bad institutions corrupt good people
- Incremental progress vs. principled opposition

****Relationship and Trust Dynamics**:**

- Disappointing environmental allies who trusted your commitment vs. disappointing family who needs your support
- Maintaining credibility with peers vs. understanding adult complexities your friends might not grasp
- Balancing various communities who have different expectations of your choices

You'll now tackle 10 sophisticated questions that explore your emotional maturity, ethical reasoning, and ability to navigate complex moral terrain while maintaining relationships and personal integrity...

...

EMOTIONAL & ETHICAL INTELLIGENCE MCQs

Question Framework (10 Questions Total):

```python

```
EQ_ASSESSMENT_STRUCTURE = {
 "emotional_awareness": 2, # Understanding emotions in self and others
 "empathy_compassion": 2, # Ability to feel and act on others' needs
 "self_regulation": 2, # Managing emotions under pressure
 "social_skills": 2, # Building relationships and resolving conflicts
 "ethical_reasoning": 2 # Moral decision-making and integrity
}
```

```
EMOTIONAL_INTELLIGENCE_TARGETS = {
 "emotion_recognition": "Can identify emotions in complex situations",
 "perspective_taking": "Can see situations from multiple viewpoints",
 "impulse_control": "Can pause and think before reacting emotionally",
 "conflict_resolution": "Can navigate disagreements constructively",
 "moral_reasoning": "Can think through ethical implications systematically",
 "authenticity": "Can be honest while remaining compassionate",
 "responsibility": "Takes ownership for impact on others",
 "resilience": "Bounces back from emotional setbacks constructively"
}
...
```

### Sample MCQ Set (Following Grade 9-10 Academic Integrity Scenario):

...

## EQ Q1: Emotional Awareness (Understanding Your Own Reactions)

When you first discovered Rohit's cheating, what was your most immediate emotional reaction, and why?

- A) Anger that he was getting an unfair advantage over honest students like yourself
- B) Disappointment that someone you trusted was compromising their integrity
- C) Worry about how this situation could affect everyone involved, including yourself
- D) Empathy for his difficult situation and understanding why he felt desperate

**\*\*EQ Target\*\*:** Tests emotional self-awareness and authentic reaction recognition

## EQ Q2: Empathy & Perspective-Taking (Understanding Others' Experiences)

Considering Rohit's family situation, which perspective do you find most important to understand?

- A) His parents' hope that education could lift their family out of economic struggle
- B) His personal shame and fear about being trapped in a cycle of dishonesty
- C) Other honest students' frustration at being disadvantaged by unfair competition
- D) The teacher's disappointment if she discovered that student improvement was artificial

**\*\*EQ Target\*\***: Tests ability to hold multiple perspectives simultaneously with genuine compassion

**## EQ Q3: Self-Regulation (Managing Emotions Under Pressure)**

When Kavya gives you the ultimatum about reporting, how do you manage your emotional response?

- A) Feel angry at her for putting you in this position and tell her she's being unfair
- B) Take time to process your feelings before responding and ask her to discuss this calmly
- C) Feel anxious about all the potential consequences and avoid making any decision immediately
- D) Acknowledge her concerns while expressing your own conflicted feelings about the situation

**\*\*EQ Target\*\***: Tests emotional regulation and constructive response under pressure

**## EQ Q4: Social Skills (Navigating Relationship Conflicts)**

If you decide to have a conversation with Rohit about the cheating, how would you approach it?

- A) Confront him directly about the dishonesty and explain why it needs to stop immediately
- B) Share your feelings of being put in a difficult position and explore solutions together
- C) Express empathy for his situation while clearly explaining your ethical concerns
- D) Focus on the practical consequences he might face if the cheating is discovered by others

**\*\*EQ Target\*\***: Tests ability to address difficult topics while maintaining relationships

**## EQ Q5: Ethical Reasoning (Moral Decision-Making Process)**

When weighing whether to report the cheating, which ethical principle guides your thinking most?

- A) Individual integrity - doing what's right regardless of circumstances or consequences
- B) Utilitarian calculus - considering which action creates the best outcomes for the most people
- C) Care ethics - prioritizing relationships and minimizing harm to people you care about
- D) Justice principles - ensuring fairness and equal treatment for all students

**\*\*EQ Target\*\***: Tests sophistication of moral reasoning and ethical framework awareness

**## EQ Q6: Emotional Awareness (Reading Others' Emotions)**

When Rohit's parents thank you for being a good friend, you notice:

- A) Genuine gratitude mixed with worry about their son's future - they sense something is wrong
- B) Pure happiness and relief - they have no idea about the cheating situation
- C) Awkward over-enthusiasm - they're trying too hard to show appreciation for something they don't fully understand
- D) Complex emotions including hope, pride, and underlying anxiety about their family's situation

**\*\*EQ Target\*\*:** Tests ability to read subtle emotional cues and underlying feelings

### ## EQ Q7: Self-Regulation (Managing Guilt and Complicity)

How do you handle the emotional weight of benefiting from Rohit's dishonesty in your group project?

- A) Compartmentalize these feelings and focus on your own honest contributions to the project
- B) Feel genuinely guilty and consider asking the teacher to re-evaluate your group's work
- C) Use this discomfort as motivation to find an ethical solution that addresses the root problem
- D) Rationalize that you didn't choose this situation and therefore aren't responsible for it

**\*\*EQ Target\*\*:** Tests emotional honesty and constructive guilt management

### ## EQ Q8: Social Skills (Communication Under Moral Pressure)

If you decide to talk to your teacher about the broader cheating issue (without naming specific students initially), how do you frame the conversation?

- A) Present it as a systemic problem that needs institutional solutions rather than individual punishment
- B) Express concern about academic integrity while also raising questions about educational equity
- C) Ask for guidance about how to handle ethical dilemmas when you have information about misconduct
- D) Suggest anonymous support systems for students struggling with academic pressure

**\*\*EQ Target\*\*:** Tests ability to communicate complex moral issues constructively

### ## EQ Q9: Empathy & Compassion (Balancing Multiple Needs)

Considering everyone affected by this situation, how do you prioritize whose needs matter most?

- A) Focus primarily on maintaining trust with friends who confided in you

- B) Prioritize the welfare of students who are being honest and working within the rules
- C) Consider the systemic inequalities that created pressure for cheating in the first place
- D) Try to find solutions that address everyone's legitimate needs rather than choosing sides

**\*\*EQ Target\*\***: Tests sophisticated empathy and ability to hold complexity

### ## EQ Q10: Ethical Integrity (Personal Values Under Pressure)

Looking back at this entire situation, what would you want to say about how you handled it?

- A) "I stayed true to my principles even when it was difficult and complicated"
- B) "I found a way to be compassionate while also upholding important standards"
- C) "I learned that real ethical situations are more complex than I initially understood"
- D) "I took responsibility for my part in the situation and worked to create positive change"

**\*\*EQ Target\*\***: Tests integration of learning, values consistency, and mature self-reflection

...

## ## CULTURAL & EMOTIONAL INTELLIGENCE ADAPTATIONS

### Tier-Specific Emotional Contexts:

#### Tier 1 Adaptations:

...

EMOTIONAL\_SCENARIOS:

- High-pressure competitive environments
- Global cultural sensitivity requirements
- Complex stakeholder management
- Individual achievement vs collective harmony

CULTURAL\_CONSIDERATIONS:

- Balancing personal ambition with social responsibility
- Navigating diverse value systems in metropolitan contexts
- Managing parental expectations in competitive environments

...

#### #### Tier 2-3 Adaptations:

...

##### EMOTIONAL\_SCENARIOS:

- Traditional vs modern value conflicts
- Community expectations vs individual desires
- Regional social hierarchies and respect systems
- Balancing family honor with personal growth

##### CULTURAL\_CONSIDERATIONS:

- Respecting elders while asserting personal values
- Maintaining community harmony while pursuing individual goals
- Bridging generational differences in moral reasoning

...

#### #### Tier 4 Adaptations:

...

##### EMOTIONAL\_SCENARIOS:

- Community collective welfare vs individual opportunity
- Traditional authority structures vs modern egalitarian values
- Resource scarcity affecting moral decisions
- Balancing local customs with broader ethical principles

##### CULTURAL\_CONSIDERATIONS:

- Understanding community consensus decision-making
- Respecting traditional wisdom while embracing change
- Maintaining local relationships while pursuing broader opportunities

...

## ## EMOTIONAL INTELLIGENCE ANALYSIS FRAMEWORK

### ### EQ Pattern Recognition:

```
```python
```

```
EMOTIONAL_INTELLIGENCE_PROFILES = {
```

```
"high_eq_integrated": {
    "pattern": "Strong self-awareness, empathy, regulation, and social skills",
    "characteristics": "Navigates complexity with emotional wisdom",
    "career_implications": "Natural leadership, counseling, team management, diplomacy"
},
"high_empathy_developing_regulation": {
    "pattern": "Deep compassion but struggles with emotional boundaries",
    "characteristics": "Feels others' pain deeply, may over-sacrifice",
    "career_implications": "Helping professions with mentorship for self-care"
},
"strong_ethics_developing_empathy": {
    "pattern": "Clear moral principles but limited perspective-taking",
    "characteristics": "Consistent values, may be rigid in application",
    "career_implications": "Law, policy, research with diverse team experience"
},
"social_skills_developing_authenticity": {
    "pattern": "Great with people but struggles with genuine self-expression",
    "characteristics": "Popular and likeable but may suppress true feelings",
    "career_implications": "Sales, PR, politics with authenticity development"
}
}
...
```

Social Quotient Indicators:

```
```python
```

```
SOCIAL_INTELLIGENCE_MARKERS = {
 "high_sq": [
 "Naturally builds rapport with diverse people",
 "Resolves conflicts constructively",
 "Reads social dynamics accurately",
 "Adapts communication style to audience"
],
 "developing_sq": [
 "Comfortable with familiar social groups",
```

```
"Learning to navigate conflicts",
"Generally perceptive about others' feelings",
"Communicates well in structured settings"
],
"emerging_sq": [
 "Prefers smaller social groups",
 "May avoid interpersonal conflicts",
 "Focuses more on tasks than relationships",
 "Direct communication style"
]
}
...
```

## ## MANDATORY JOURNAL REFLECTION

### ### Emotional & Ethical Intelligence Journal:

...

### # 📝 Step 6 Journal – Emotional & Ethical Intelligence Discovery

{Student Name}, you've just navigated a complex situation involving emotions, relationships, and moral choices - the human side of decision-making!

This step revealed how you understand emotions, build relationships, and make ethical decisions. Let's reflect on these crucial insights about yourself.

#### ## \*\*What I learned about how I handle emotions:\*\*

\*Think about: How do you typically react to emotionally charged situations? Do you process emotions internally first, or do you prefer to talk through feelings with others?\*

[Minimum 35 words required]

#### ## \*\*How I approach relationships and conflicts:\*\*

\*Consider: What's your natural style when people disagree or have competing needs? Do you try to find middle ground, advocate for principles, or focus on maintaining harmony?\*

[Minimum 35 words required]

## \*\*What surprised me about my ethical reasoning:\*\*

\*Reflect: Were there any moral decisions that felt more difficult than expected? Did you discover values or principles that matter more to you than you realized?\*

[Minimum 30 words required]

## \*\*How this connects to my future career and leadership:\*\*

\*Imagine: Based on how you handle emotions and ethical challenges, what types of work environments and leadership roles would suit you? How might your EQ style contribute to your career success?\*

[Minimum 40 words required]

---

\*Remember: Emotional and ethical intelligence can be developed throughout life. Understanding your current style is the foundation for continued growth!\*

...

## ## COMPREHENSIVE EQ & ETHICS FEEDBACK REPORT

### Complete Emotional Intelligence Report:

...

# 📊 YPD CVP Lite™ - Step 6 Feedback Report

## Emotional & Ethical Intelligence Assessment
